

MEGHA BHATNAGAR, AIA

ARCHITECTURAL DESIGNER

EDUCATION

Master of Architecture, University of Illinois at Urbana-Champaign

Bachelor of Architecture, Manipal Institute of Technology

Megha is an instrumental part of Eckenhoff Saunders' healthcare design team. She creates plans and renderings to help our clients visualize and achieve their project goals. Her healthcare experience includes working with NorthShore University HealthSystem, Rush University Medical Center, UChicago Medicine, Duly Health and Care, and Silver Cross Hospital.

Duly Health and Care Dermatology Suite Schaumburg, Illinois

- Project Designer for the interior build-out of approximately 5,000 sf of build-out space to develop a new dermatology suite. The work includes creating new waiting, reception, exam, aesthetics, support, and offices. Design services include architectural, interior design, HVAC, plumbing, fire protection, and electrical engineering.

Skokie Hospital – **NorthShore University HealthSystem** Skokie, Illinois

- Medical Office Building - 3rd Floor Research
- 5th Floor Inpatient Rehab Renovation

NorthShore University HealthSystem **Neurological Institute**

- Renovation of the existing 17,000 sf NorthShore Neurological Institute (NNI) Suite at 1000 Central Street in Evanston. This project involves partial re-planning of the existing space and finish and fixture replacements to align with NorthShore's current standards developed by Eckenhoff Saunders. Project Designer assisting with construction documents and construction phase oversight.

Evanston Hospital – **NorthShore University HealthSystem** Evanston, Illinois

- 5th Floor Psychiatric Modifications
- Mammography Finish Upgrades

Highland Park Hospital – **NorthShore University HealthSystem** Highland Park, Illinois

- 2nd Floor Psychiatric Modifications
- Mammography Renovations. Finish and fixture upgrades the existing Mammography Department, consisting of approximately 3,600 sf. New finishes align with NorthShore's Women's Center palette developed by Eckenhoff Saunders.
- Project Designer for replacing the PET CT Equipment within the Nuclear Med space at Highland Park Hospital's Ambulatory Care Center. The scope involved reviewing and coordinating equipment vendor documents within the PET CT room and new roof-mounted mechanical equipment.

Rush Oak Park Hospital Oak Park, Illinois

- Project designer for new electrophysiology (EP) lab in the lower level of the new emergency department building. The clinic is approximately 3,100 sf and consists of a new lab, control room, storage, prep and recovery, staff area, and toilets.

Glenbrook Hospital – **NorthShore University HealthSystem**

- Glenview, Illinois
- Mammography Renovations

Rush University Medical Center Munster, Indiana

- Physicians Suite

Rush University Medical Center Lisle, Illinois

- Cancer Care Center

Rush University Medical Center Chicago, Illinois

- Rush West Loop
- Rush South Loop Physical Therapy

UChicago Medicine/Silver Cross Hospital New Lenox, Illinois

- UChicago Medicine Comprehensive Cancer Center at Silver Cross Hospital - New Lenox
