Pontifical Xavierian University

Associate of Applied Science,
Interior Design, St. Louis Community
College-Meramec

PROFESSIONAL REGISTRATIONS

NCIDQ

International Associate AIA

PROFESSIONAL AFFILIATIONS

American Institute of Architects

Juan has a keen eye for aesthetics and possesses a high level of creativity. He can think outside the box and come up with unique and innovative design solutions that cater to the specific needs and preferences of his clients. Along with creativity, he has a solid foundation of technical knowledge and expertise in various aspects of interior design, such as space planning, color theory, lighting, materials, and furniture design. He understands how to balance form and function to create functional and visually appealing spaces. He actively listens to clients' needs and preferences, articulating design concepts and conveying ideas clearly and professionally.
