

CORPORATE SPACE AT GLENBROOK HOSPITAL

CORPORATE SPACE DESIGNED WITH STATE-OF-THE-ART AMENITIES AND BUILT FOR ULTIMATE FLEXIBILITY

CLIENT Endeavor Health | **LOCATION** Glenview, Illinois | **SIZE** 13,150 sf

PROJECT SCOPE

Endeavor Health's new corporate space is a 13,150-square-foot build-out within the Glenbrook Hospital Ambulatory Care Center in Glenview, Illinois. The project encompasses three main components: executive meeting space, executive office space, and staff meeting space. Strategically located at Glenbrook Hospital, this space offers a centralized location within Endeavor Health's hospital system.

The executive meeting area is a showcase of technological innovation, featuring a 50-seat board room and a 29-seat executive conference room. Both rooms are equipped with custom tables and state-of-the-art AV equipment, ensuring seamless global communications. This area also includes a reception, a nourishment kitchenette, a catering support space, and two phone rooms.

The executive offices comprise office/meeting rooms, focus rooms, and a conference room, designed as hoteling spaces for executives who need to work on-site for the day. This section also includes a media studio capable of broadcasting messages from the CEO or hosting panel discussions.

The staff meeting space exemplifies the project's flexibility, featuring a 1,715-square-foot multi-purpose meeting room. The advanced AV design and adaptable furniture allow for various layout configurations, catering to different meeting types and enhancing the space's versatility.

Significant attention has been given to acoustics throughout the project. An acoustic gypsum board ceiling system, acoustic wall panels, and decorative acoustic ceiling elements have been incorporated into the board room, executive conference room, and multi-purpose rooms. Additionally, white noise will be utilized to ensure privacy, underscoring the project's commitment to creating a conducive work environment.
