

## DOMAINE LUMINEUX WINERY

DESIGN OF NEW WINE PRODUCTION AND ENTERTAINMENT PAVILION

**CLIENT** Domaine Lumineux Winery | **LOCATION** Dundee Hills, Oregon

### PROJECT SCOPE

Eckenhoff Saunders, in collaboration with Saavedra Group Architects, designed a new wine production and entertainment pavilion for this expansive 80-acre vineyard in the scenic Dundee Hills of Oregon. The architectural concept draws inspiration from the pioneering work of Nobel Prize-winning physicist Louis de Broglie, whose groundbreaking contributions to quantum theory in the 1920s served as the creative foundation for this unique project.
