

RUSH MD ANDERSON CANCER CENTER-LISLE

TRANSFORMATION OF FORMER COMMERCIAL OFFICE BUILDING INTO A COMPREHENSIVE CANCER CARE CENTER

CLIENT RUSH University Medical Center | **LOCATION** Lisle, Illinois | **SIZE** 60,000 sf

PROJECT SCOPE

Eckenhoff Saunders collaborated with RUSH University Medical Center to transform and expand a former office building into a cutting-edge cancer care facility in Lisle.

Key features of the the new facility include:

- **Specialized Treatment Areas:** Dedicated spaces for radiation oncology, medical oncology, infusion clinic, pharmacy, and lab services.
- **Comprehensive Imaging Center:** Equipped with MRI, CT scan, ultrasound, X-ray, and mammography capabilities.
- **LINAC Vault Addition:** A 2,300-sf, one-story addition housing advanced radiation therapy technology.
- **Holistic Therapy Spaces:** Designed for patient wellness, including areas for meditation, massage, and group exercise.
- **Enhanced Façade:** Major upgrades incorporate ACM metal panels and stained granite to align with RUSH's branding.

This transformative project redefines cancer care, delivering innovative treatment options in a modern, patient-centered environment.
