
GLENBROOK HOSPITAL

KELLOGG CANCER CENTER

CLIENT Endeavor Health | **LOCATION** Glenview, Illinois | **SIZE** 23,000 sf

PROJECT SCOPE

The Center is prominently located on the ground floor of the ambulatory care center, providing a welcoming west entry to the hospital. Inside, four thoughtfully designed clinical pods offer 27 private treatment rooms and 14 exam rooms, each conveniently accessed via public corridors. Upon arrival, visitors are greeted by a spacious reception area featuring individual seating alcoves, seamlessly connecting to the clinical pods and a tranquil healing garden that extends the length of the building.

Dedicated staff circulation routes lead to charting stations, a pharmacy, nurse stations, consult rooms, and comfortable staff locker and lounge areas. Every patient room is enhanced with large windows overlooking the lush healing garden, promoting natural light and a calming environment.
