

BRENDAN GILMER

ARCHITECTURAL DESIGNER

EDUCATION

Bachelor of Science in Architecture,
University at Buffalo

Brendan Gilmer is an architectural professional with experience supporting complex healthcare, industrial, and commercial projects from design development through construction administration. He brings strong technical skills in Revit-based production, detailing, and consultant coordination, and is often trusted to step into projects midstream to help resolve challenges and bring teams across the finish line. With experience working on large, multidisciplinary teams as well as smaller renovation efforts, Brendan is comfortable leading production tasks, running meetings, and supporting project delivery in fast-paced environments.
