Pediatrics Department Upgrade

With over 20 years of design experience, Ewa integrates innovative design principles with a deep understanding of healthcare needs, ultimately fostering environments that optimize care delivery, elevate functionality, and cultivate a healing ambiance. Ewa has extensive knowledge in planning, local codes and ordinances, ADA accessibility requirements, and construction administration, especially with projects involving complex technology-based systems. She has collaborated with over 60 clients to create state-of-the-art healthcare spaces. Before joining Eckenhoff Saunders, she was the project architect for a 120,000 sf patient care addition at Resurrection Medical Center and a 54,000 sf surgery/ICU renovation at Evanston Hospital for Endeavor Health.
