University of Michigan

PROFESSIONAL REGISTRATIONS

Registered Architect, Illinois

Jonathan has 25 years of planning, design, and construction administration experience, more than 20 of which have been solely in healthcare-related projects. His work includes project management for complete replacement hospitals and multi-phase renovations/additions for existing facilities. Departmental experiences range across ambulatory care centers, women's centers, standard and specialized nursing units, surgical and central processing departments, pharmacy, and various modalities of radiology diagnostics as well as outpatient and testing facilities.

Glenbrook Hospital– Cardiovascular Institute Expansion

Glenview, Illinois

- 165,000 sf 2-level building addition including operating rooms, cath labs, prep/recovery, and support spaces, along with a new waiting/lobby area, offices, and an entrance canopy. The scope also includes a partial new basement housing mechanicals. Specific architect role focused solely on the planning, design, and build-out of the surgical services area (operating rooms and cath labs).

Howard Brown Health Halsted

Chicago, Illinois

- Project Architect for Howard Brown Health, a not-for-profit organization serving the healthcare needs of the LGBTQ community in Chicago. The new 90,000 sf, 5-level structure, located in the heart of Northalsted, includes outpatient clinical services, a full dental suite, and street-level retail. It also provides underground parking, a generous community gathering space, and an expansive rooftop terrace.

Glenbrook Hospital–CVICU Renovation

Glenview, Illinois

- Project Manager overseeing the construction administration phase of an 18,000 sf renovation on the Level 4 South wing. The project entails converting the entire south wing inpatient nursing unit into a 14-bed cardiac intensive care unit. Scope also includes relocating an existing CT to a portion of the Level 4 North wing and renovating the centrally located staff support areas serving both ICU wings. Work includes exterior window replacement and interior insulation upgrades to the exterior wall to meet current energy code requirements.

Evanston Hospital–KCC Outpatient Pharmacy Renovation

Evanston, Illinois

- Project Architect for a complete renovation and expansion of an existing pharmacy. Scope includes conversion of existing under-utilized ancillary space to non-hazardous and hazardous drug hood rooms meeting requirements of USP 797 and 800 to obtain an ISO 7 Cleanroom Classification.

John H. Stroger Hospital of Cook County –MR & Radiology Equipment Replacement and Renovations

Chicago, Illinois

- Project Architect for complete renovations to multiple radiology modalities including MRI, CT, IR and X-Ray.

Edward Hospital North Entrance Canopy & Lobby Addition*

Naperville, Illinois

- Project Architect for an expanded lobby, entrance, and drop-off area as a precursor to a larger east building addition. Scope renovated a single-lane drive-through drop-off into (3) separate lanes for patients, valets, and pass-through. An existing parking structure entrance for visitors was also relocated/redesigned for better convenience and more efficient throughput. The project also featured interior renovations and the expansion of the existing lobby, along with a new indoor waiting/pickup area for discharged patients/visitors.

Glenbrook Hospital–3 South Patient Bed Unit Renovation

Glenview, Illinois

- Project Architect for a complete renovation of a bed unit floor on the 3 South wing. Scope includes demolition of existing patient rooms and core support areas. New interior build-out of patient rooms and support spaces with all associated MEPT infrastructure and upgrades, as well as finishes. Work also included exterior window replacement and insulation upgrades to the interior side of the exterior wall to meet current energy code requirements.

Advocate Christ Hospital & Medical Center*

Oak Lawn, Illinois

- EP cath lab and bed unit renovation

Advocate Lutheran General Hospital*

Park Ridge, Illinois

- IR lab renovation

Bronson South Haven Hospital*

South Haven, Michigan

- Replacement micro-hospital

Elmhurst Hospital*

Naperville, Illinois

- OB bed unit renovation

Mercy Hospital & Medical Center*

Chicago, Illinois

- Lobby renovation

Palos Community Hospital*

Palos Heights, Illinois

- IPS and bed tower addition

- MRI renovation

- EP cath lab addition

- ED/radiology & bed unit renovations

- Behavioral health bed unit renovation
