Kristie is a detail-orientated architectural designer with a diverse background of experiences from high-end residential to multifamily towers, corporate and medical office buildings, and mixed-use developments. Her knowledge of the design and construction process across a variety of markets allows her to seamlessly blend functionality, efficiency, and aesthetics. She thrives in challenging environments that require a fresh perspective and is passionate about sustainability and community impact. Kristie is dedicated to creating spaces that inspire, engage, and relate to their context.
