

CHICAGO'S FIRST LADY CRUISES - TICKET BOOTHS

RIVERWALK DEVELOPMENT

CLIENT Chicago Architecture Center | **LOCATION** Chicago, Illinois (River Walk)

PROJECT SCOPE

As the Chicago Riverwalk and the Chicago Architecture Center's architectural river tours continued to grow in popularity, Chicago's First Lady Cruises partnered with Eckenhoff Saunders to transform five separate trailers into a unified ticketing destination. Inspired by the horizontal lines of a ship's hull, wood slat cladding wraps the structures to create a cohesive architectural identity and a distinctive gateway to the First Lady dock.
